

It gives me immense pleasure to extend my heartfelt greetings to the graduating students of the Indian Institute of Technology, Jammu on the momentous occasion of the 7th Convocation, being held on 26th September 2026.

This day is a new beginning for our graduating engineers. The years you have spent within IIT Jammu campus have shaped you into thinkers, problem-solvers and innovators equipped to meet the challenges of a rapidly evolving world. You leave this Institute carrying with you not just a degree but a spirit of curiosity, resilience and purpose that IIT Jammu has strived to instil in every student.

The institute has in a short span of time built a reputation for academic excellence, cutting-edge research and a commitment to nurturing talent from this region and beyond. The achievements you celebrate today are a testament to your hard work and equally to the dedication of the faculty and non-teaching staff who have guided and supported you along the way. I take this opportunity to express my sincere appreciation to them for their tireless efforts in shaping the next generation of engineers, entrepreneurs and industry leaders.

As you step into the real world, I urge you to remain curious, stay grounded in your values and use your knowledge in service of society. The nation and the world need engineers who not only build technology but who build it responsibly, ethically and with empathy for the communities they serve. Let the values of integrity and excellence that IIT Jammu stands for continue to guide you throughout your careers.

I also take this moment to congratulate the parents and families of our graduates, whose unwavering support and sacrifice have made this achievement possible.

My congratulations and best wishes for a bright and fulfilling future.

15th September, 2026
