 Palampur, Himachal Pradesh

A man in a dark jacket is speaking at a podium, gesturing with his hands.

An audience of four men is seated at a long wooden table, listening attentively. They are wearing casual attire, including jackets and hoodies.

The table is set with several water bottles, notebooks, and printed documents. The room features wood-paneled walls and large windows with vertical blinds.

On-site Lavender Extraction and Purification Pilot Plant

IIT Jammu, UBA project provided lavender processing facility in Nador village, Nagrota block, will create a sustainable value chain by improving oil yield and quality. Under PI Dr. Nitesh Kumar, the project will boost local incomes, generate jobs, and establish the region as a lavender hub, while providing market insights.

Heeng Cultivation Training and Plantation in Kargil, Ladakh

Ladakh IIT Jammu, as the Regional Coordinating Institution, UBA project initiated the Heeng cultivation project at GDCKargil's adopted villages, following training at IHBT Palampur in March 2023. Free seeds were distributed to trained farmers with student participation. Heeng plants are in dormancy and Handu are expected to be planted in Kharul, Khundru, and Handu in 2025.
