

National Workshop on Mobile Device and Application Security

17th-18th March, 2025

This National Workshop on Mobile Device and Application Security serves as a platform for researchers, industry professional, and students to collaborate, share knowledge, and drive progress in securing our mobile ecosystem. The National Workshop is sponsored by the Information Security and Education Awareness Project – Phase III (ISEA-III), an initiative of the Ministry of Electronics and Information Technology, Govt. of India, to promote activities in the field of Information Security and Privacy. The workshop will feature expert talks and hands-on tutorials on Mobile Security by prominent speakers from Academia and Industries.

Indian Institute of Technology Jammu (IIT-Jammu)

Established in 2016, IIT Jammu is a leading institute of national importance dedicated to excellence in education, research, and innovation. Located in the picturesque region of Jammu, the institute offers state-of-the-art infrastructure and a vibrant academic environment. With a strong focus on interdisciplinary research and industry collaboration, IIT Jammu is committed to addressing global challenges. Hosting this workshop reflects its mission to foster knowledge exchange and technological advancements in the Cyber Security and Mobile Security Domain.

Information Security Education Awareness (ISEA)

Information Security Education and Awareness (ISEA) is an initiative of Ministry of Electronics and Information Technology (MeitY), Government of India for creating human resources in the area of Information Security and disseminating general awareness on Cyber Hygiene/Cyber Security among the masses

Jammu and Kashmir

Jammu and Kashmir, often referred as "Paradise on Earth," is renowned for its breathtaking landscapes, including snow-capped mountains, serene lakes, and lush valleys. The region is a hub for tourism, offering attractions like Gulmarg, Dal Lake, and Vaishno Devi, along with vibrant culture.

Themes

- Mobile Operating System Security
- Mobile Application Security
- Mobile Forensics
- Network Security for Mobile Devices
- Privacy and Security in Mobile Applications
- Mobile Malware and Anti-Malware Techniques
- Mobile Security Testing and Vulnerability Analysis
- Secure Mobile Application Development

Poster Competition

Participants are invited to showcase their innovative ideas and research findings through a Poster Presentation. The best two posters will be awarded certificates of excellence in recognition of outstanding contributions. This opportunity allows valuable work to be shared and engagement with a vibrant community of experts and peers.
